VB-WPS-001

Key **Features**

- Instant Wireless Presentations
- Cross-platform Support
- Touch Back Control
- Split-Screen Display with Host Control
- Simple and Secure Pairing
- USB-C Single Cable Plug-and-Play

Product **Description**

The ViewSonic® ViewBoard® Cast Button is an easy-to-use USB-C screen sharing device. It enables 1080p content to be streamed from a user's PC onto a ViewBoard® interactive display over wireless or cable networks. Just pair the button with your devices, click the button and begin sharing content. Cross-platform support for Windows, MacOS, Chrome OS and Linux delivers convenience and versatility. Easy USB-C connectivity enables video, audio and power transmission over a single cable. Dual-band WiFi support ensures blazing-fast wireless network speed, and the built-in WPA2 PSK encryption ensures a secure connection. Whether used in conference rooms or huddle spaces, the ViewBoard® Cast Button makes group collaboration quick and easy.
